

# **Day for Life 2008**

## **Positively Pro Life Campaign**

Prayer Intentions;

1. We pray for fathers, that they may support the mothers of their unborn children in a positive way through the vulnerable stage of pregnancy and childbirth.
2. We remember women who feel isolated, depressed or alone with their pregnancy. We pray that they may seek support and friendship rather than abortion at this precious time.
3. We pray for those women who are finding pregnancy a source of mental anguish, they will find peace and solace from the many pro-life organisations available.
4. For a society that has lost its' way. We pray for a reawakening of the value of human life from conception to the grave.
5. We pray especially for all doctors and nurses who through false compassion are involved in the abortion industry. That they may come to see the true value of compassion and love for pregnant women and their unborn babies.
